OVERVIEW

The DaVinci Company is a Service-Disabled Veteran-Owned Small Business (SDVOSB) dedicated to supplying government agencies with top-tier Pharmaceuticals, Medical Surgical Equipment, Medical Supplies, and Medical Devices.

CORE COMPETENCIES

- Only Authorized Dealer (No Grey Market): Partnered with and respected by leading Original Equipment Manufacturers (OEMs).
- Sourcing Excellence: Ability to source high-quality products from multiple trusted OEM partners.
- 100% on-time delivery: DaVinci's SPRS score proves our track record with consistent on-time delivery of products over the past three years.
- Expert Staff: A robust team with extensive expertise in logistics, contract administration, and distribution.

OUR COMMITMENT

The DaVinci Company prides itself on reliability, expertise, and exceptional service, ensuring that government agencies receive the best medical products promptly and efficiently. Our dedicated team is committed to maintaining our reputation for excellence and continuing to support our partners with unparalleled professionalism and integrity.

QUALITY FOCUSED STRATEGY

- In-house legal counsel who ensures all contracts are meticulously reviewed and fully compliant with regulatory requirements.
- A dedicated finance team committed to ensuring timely invoicing and strict adherence to contract requirements.
- A dedicated marketing and branding team that supports our presence at healthcare engagements and implements comprehensive marketing plans for market initiatives.
- Experienced staff pharmacist to provide expert support for all pharmaceutical supply efforts, backed by extensive industry experience.
- Expert Government and audit management that efficiently handles government interactions and audits, eliminating the need for overhead or lowest commercial pricing audits.

AMSINO

Advancing Healthcare Worldwide®

Sterile Field Ready Flush Syringes & Standard Dust Cover Flush Syringes (Sterile Fluid Pathway)

TAA Compliant syringes will be available Q2.

AM Safe® Prefilled saline flush syringes, sterile, non-pyrogenic, DEHP/PVC/latex-free, FDA cleared, TAA compliant, meeting the highest quality standards at a lower cost.

AM Sure Sterile Water Prefilled Humidifier TAA Compliant, FDA Approved

AM Sure Sterile Water Prefilled Humidifier provides sterile water, USP, for inhalation therapy and humidification. Designed for respiratory therapy, each bottle includes adapters and features built-in oxygen tubing connectors for easy integration. The micro-diffuser produces smaller bubbles for quieter operation and improved surface agitation, while an audible alarm alerts clinicians to flow restrictions or oxygen tubing occlusions.

AM Sure Sterile Water for Inhalation TAA Compliant, FDA Approved

This sterile water, USP, is designed for inhalation therapy and is suitable for use in nebulizers and humidifiers. Packaged in a hanging spikable bag, it is compatible with vented spikes only, ensuring safe and efficient delivery.

AM Sure Sterile Water and Sodium Chloride Inhalation Solution TAA Compliant, FDA Approved

Available in 3 mL, 5 mL, and 15 mL sizes, this USP solution features an easy open twist-off cap for precise dispensing by the drop or milliliter. It is designed for use in suctioning and respiratory inhalation.

SUTUMED TAA Compliant, FDA Approved

A legacy of quality in surgery.

Generic sutures that feature an extensive selection of sizes, lengths, and needle types, designed to meet diverse clinical needs. Engineered to mirror the performance of industry-leading brands, such as Johnson & Johnson, Sutumed's sutures offer the same reliability and effectiveness but at 50%-80% less cost.

Absorbable Sutures

- PolyGlicolic
- Polyglactin Polydioxanone
- Chromic Gatgut
- Plain Gatcut
- Poliglexapreone 25 Nylon (Mono)

Non-absorbable Sutures

- Nylon (Multifilament)
- Polyester (Braided)
- Polyester (Braided w/out Covering)
- Silk

Anti-bacterial Sutures

- SUTUCRYL Antibacterial (Polyglactin) PDO II
- Antibacterial (Polydioxanone)

TAA Compliant, FDA Approved

Postpartum & Post Abdominal Surgery Binder

Postpartum and post-surgery abdominal binder made from soft, medical-grade elastic, providing lightweight, all-around compression without rolling or bunching. Designed for maximum comfort and recovery support, it aids in postpartum, C-section, and various abdominal surgeries, including hysterectomy, hernia repair, and liposuction. The latex-free, hook-receptive design allows for unlimited adjustability, while the seamless construction minimizes irritation to sensitive skin.

Seamless Maternity & Incontinence Briefs

Seamless maternity and incontinence briefs provide superior comfort, security, and dignity compared to standard hospital mesh briefs. Designed with enhanced elastic stretch and a wide waistband, they accommodate a range of body types while ensuring a secure fit. The strong, evenly distributed elastic improves comfort and prevents leaks by keeping insert pads in place. Suitable for both maternity and continence care, these briefs are compatible with all absorbent insert pads and are available in four sizes with color-coded waistbands.

Fetal Monitor Belly Band

The Fetal Monitor Belly Band provides exceptional comfort and secure monitoring for laboring mothers, including high-BMI and special needs patients. Made from a seamless, stretchable knit, it expands to hold both the transducer and tocometer in place, ensuring reliable tracking during labor and antepartum care.

Buttonhole Fetal Monitor Belts with Buttons

Made from soft, chemical-free knitted yarn, these 48" x 2³/₈" belts provide optimal comfort. Each set includes one pink and one blue belt with two buttons per bag and is latex-free.

Plush Fetal Monitor Belts with Tabs

These 38" x 1¹/₂" belts come in a hygienic bagged set, including one pink and one blue belt. Featuring sonic-welded tabs for a secure hold, they are latex-free for added safety.

TAA Compliant, FDA Approved

Pall Medical (part of Cytiva), we envision a world in which access to life-changing therapies transforms human health and we serve healthcare professionals, medical device manufacturers and patient with filtration and membrane solutions. Our medical applications are respiratory, surgical gas, cell therapy, healthcare water and IV (intravenous) filtration.

Pall Patient Kit

- **Ultipor™ 25 Breathing Circuit Filter**
- Single-use bacterial/viral and heat and moisture exchanger filter (HMEF), designed for patient-end use in anesthesia.
- BB50T Breathing Circuit Filter (obsoleted)
- Ultipor™ 55 Breathing Circuit Filters, Single-use bacterial/viral highly efficient pleated hydrophobic filter for machine end applications
- Supor® AEF low protein binding intravenous filter set
- Posidyne® ELD Filter Hold-up
- CO2 Gas Sampling Line (its an accessory or part of the circuits)
- PharmAssure® Pharmacy Filtration Devices
- Laparoshield™ laparoscopic smoke filtration system, Passive smoke evacuation system used in laparoscopic procedures
- Pro-Tec® PF30S (obsoleted)
- Filter Total Nutrient Admixture Filters
- Expandable Dual Limb Circuit
- Different lengths of dual limb & coaxial circuits, with CO2 line and breathing bag.
- **Patient Kit containing an anesthesia mask (LA, MED, SA & PED), Ultipor 25 Breathing Circuit Filer and elbow**
- Capsule Filter Qpoint Water for Faucet
- Qpoint Tap Water Filter for Faucet

TAA Compliant, FDA Approved

Riester Medical is dedicated to advancing diagnostic precision and improving patient care by providing high-quality medical diagnostic devices to healthcare professionals worldwide. Our product portfolio includes stethoscopes, sphygmomanometers, otoscopes, ophthalmoscopes, and other essential clinical instruments designed for reliability, accuracy, and ergonomic performance.

Stethoscopes & Auscultation Supplies

Stethoscopes

- Cardiophon 2.0 – available in Black, Blue, Burgundy
- Duplex® 2.0 – finishes include Black, Blue, Green, Red, White; types include standard and Baby, Neonatal
- Tristar® – Blue with 3 chest pieces (packaged in sales box)

Chest Pieces & Accessories

- Chest Pieces (double head, aluminum) for Tristar® – Adult, Child, Infant
- Chest Piece – Duplex® aluminum double head

Binaurals & Rings

- Binaural for duplex®, anestophon®
- Non-chill rings in multiple sizes and color compatibilities:
 - Ø22 mm, Ø28 mm, Ø35.8 mm, Ø38 mm, Ø48 mm, Ø52 mm — with colors Black or Grey depending on model

Membranes

- Ø26 mm neonatal, Ø34 mm baby with or without hole, Ø44 mm, Ø45 mm across models including cardiophon, duplex®, anestophon®, tristar®

Stethoscope Duplex 2.0 Red Steel

TAA Compliant, FDA Approved

Riester Medical is dedicated to advancing diagnostic precision and improving patient care by providing high-quality medical diagnostic devices to healthcare professionals worldwide. Our product portfolio includes stethoscopes, sphygmomanometers, otoscopes, ophthalmoscopes, and other essential clinical instruments designed for reliability, accuracy, and ergonomic performance.

Specula 5mm

Otoscopy & Vision Components

Otoscope / Ophthalmoscope Heads & Kits

- EliteVue
 - Head only (LED 3.5V, anti-theft)
 - Sets: LED 2.5V C-Handle (2 alkalines); LED 3.5V dual-handle Li-ion; LED 3.5V single-handle Li-ion
- E-scope® F.O.
 - Otoscope, Ophthalmoscope, Otoscope/Ophthalmoscope F.O. LED 3.7V Black, all in case
- Ri-scope® L Series & Pen-Scope® / Ri-Mini® – various heads, bulbs, anti-theft modules, handles
- May-Ophthalmoscope Heads XL 2.5V and XL 3.5V, pin contact
- Spare Bulb for E-scope Ophthalmoscope 3.7V

Specula 5mm

Specula – disposable & reusable

- Disposable Ear Specula – Ø2.0 mm to Ø9.0 mm Black for Ri-Scope® L4
- Disposable Ear Specula – Ø2, 2.5, 3, 4, 5 mm for Ri-Scope® L1/L2
- Reusable Ear Specula – Ø2, 2.5, 3, 4, 5 mm for Ri-Scope® L1/L2, L3, Pen-Scope®, E-Scope®
- Reusable Nasal Specula – Ø9 mm Black for Ri-Scope® L3
- Disposable Nasal – chrome-plated speculum

Specula 5mm

TAA Compliant, FDA Approved

Blood Pressure & Tourniquet Systems

BP Units & Cuffs

RBP-100

- ri-champion® smart PRO/PRO+ BP device:
 - smart PRO: No BT – W-Cuff and S-Cuff
 - smart PRO+: With BT – W-Cuff and S-Cuff
- Cuffs – S and W sizes for ri-champion®; adult/child/infant/thigh pneumatic tourniquet cuffs; Metpak – 500 mL/1000 mL bladderless/1000–5000 mL latex-free bags

Standards & Accessories

- big ben® Square floor and wall models (adult velcro cuff)
- big ben® extension module & handle replacements
- Mobile Stand – standard, plus base, pipe, adapter, baskets
- Tube connectors (galv./shock-proof models)

Accessories, Carts & Cases

Carts & Station Modules

RVS-100

- Ri-former® Diagnostic Stations –
 - mobile / wall units – with single/dual handles; optional anti-theft heads, specula dispensers, large scale aneroid, latex-free cuff; optional predictive/oral thermometers; RBP-100 automatic BP device
- Wallboard & universal clamps for ri-magic® and anesthetic models
- Ri-magic® HP-LED lamps – desk/floor/wall-mounted, with clamps/adapters

Storage & Support Supplies

- Baskets (mobile stand) – small & large; coiled tubing; latex bulb release valve; nameplates; pouch, vinyl or plastic shock-proof cases; zippered nylon cases
- Probe covers (disposable/plastic box/wall support) – single, small, bulk
- Chest tube connectors (male, female, shock-proof)
- Clamps, handles, Plastic boxes for R1 shock-proof

Ri-former RBP-100 Wall Unit

Riester

TAA Compliant, FDA Approved

Riester Medical is dedicated to advancing diagnostic precision and improving patient care by providing high-quality medical diagnostic devices to healthcare professionals worldwide. Our product portfolio includes stethoscopes, sphygmomanometers, otoscopes, ophthalmoscopes, and other essential clinical instruments designed for reliability, accuracy, and ergonomic performance.

Laryngoscope Set

Laryngoscopy & Intubation

Handles & Blade Sets

- Carrying pouch/case
- Ri-dispo® Disposable Laryngoscopes (Macintosh Nos. 1–4; Miller Nos. 0–3)
- Ri-standard Blades (Macintosh Nos. 0–5; Miller 00–4) with vacuum lamp 2.7V — and set with C-Handle + Blades 2,3,4
- Ri-modul Detachable F.O. Blades (Macintosh Nos. 1–5; Miller Nos. 00–4) – plus LED 3.5V set with C-handle & blades 2–4
- Ri-integral Integrated F.O. Blades (Macintosh & Miller) + Flex; multiple LED voltage sets with AA or C-handles, Li-ion battery, charger

Light Conductors

- Macintosh 0, 1, 2

Macintosh Laryngoscope Blades

Digital & Connectivity Devices

- USB dongle (RVS-100 Bluetooth)
- Wi-Fi dongle (EMR integration)
- RVS printers
- SpO₂ Sensors (Nellcor & Riester: adult, child, neonatal)
- Ri-sonic E-Stethoscope PCP-USB & PCP-1 devices

TAA Compliant, FDA Approved

Riester Medical is dedicated to advancing diagnostic precision and improving patient care by providing high-quality medical diagnostic devices to healthcare professionals worldwide. Our product portfolio includes stethoscopes, sphygmomanometers, otoscopes, ophthalmoscopes, and other essential clinical instruments designed for reliability, accuracy, and ergonomic performance.

rpt-100

Thermometers & Temperature Tools

Thermometers

- Ri-thermo® FastProbe (oral/axillary/rectal)
- Ri-thermo® SensioPRO & SensioPRO+ (non-contact, Bluetooth-enabled)
- Ri-thermo® TymPRO+ Tympanic Thermometer with Bluetooth
- TymPRO handheld tympanic model
- RPT-100 Predictive Thermometer, with probe covers

tymPRO

Accessories

- Calibration kit for tymPRO and sensioPRO
- Disposable probe covers (single & bulk packs, wall support, plastic box)

Reflex & Neurological

Reflex Hammers

- Babinsky, Berliner, Buck (chrome with needle & brush), Dejerine (with/without needle), Taylor (stainless steel), Troemner (180g, 230g)

Taylor Percussion Hammer

Tuning Forks

- C-128 (aluminum, stainless steel), C-64 stainless steel, C-1 256 stainless steel, C-2 512 (aluminum, stainless steel), C-3 1024 stainless steel, Rydel-Seiffer (stainless, with base), Fork Set III

TAA Compliant, FDA Approved

A·E·R[®]

AER Witch Hazel Pads/14-3250-40 and Towelettes

Saturated with 50% Witch Hazel, an astringent that helps to shrink swollen or inflamed tissues and relieve irritation, along with 12.5% non-greasy glycerin that acts as a protectant. May also be used in daily vaginal care to cleanse and freshen, maintaining proper anoperineal hygiene and as a final step in infant cleansing while changing diapers.

Scopettes[®]
BRAND

Scopettes and Scopettes Jr. 3/16 inch cushioned tips

Scopettes and Scopettes Jr. are designed for proctologic and vaginal procedures but may be used for topical and oral applications as well. Uniform and highly absorbent with 5/8 inch Rayon heads and 3/16 inch cushioned tips. Birchwood applicators are available in 8 and 16-inch lengths and are supplied in both sterile and non-sterile packaging.

ONETOUCH® TAA Compliant, FDA Approved

Blood Glucose Monitors

The OneTouch® Ultra® 2 meter provides fast, accurate results in just five seconds with DoubleSure® Technology, checking each sample twice for accuracy. It tracks before and after meal averages and is easy to use with OneTouch® Ultra® test strips. Covered by Traditional Medicare Part B with most patients paying \$0 with supplemental insurance, the kit includes a meter, lancing device, lancets, and an owner's manual (test strips and carrying case sold separately).

The OneTouch Verio Flex® meter uses ColorSure® technology to instantly show if your glucose reading is low, high, or in range. The OneTouch Reveal® mobile app automatically logs readings, tracks patterns, and enables easy data sharing with your care team. Designed for use with OneTouch Verio® test strips, it offers a simple and effective way to manage blood sugar levels.

Level 2 & Level 3 Control Solutions

Regular use of control solution ensures accurate blood sugar readings by verifying that your meter and test strips are working properly. A control test should be done weekly, when opening a new vial of test strips, or if a reading seems incorrect. OneTouch Verio® Control Solution is designed for use with OneTouch Verio® meters and test strips. Keeping a fresh vial on hand is essential for effective diabetes management.

TAA Compliant, FDA Approved

Boost Oxygen – Portable Pure Oxygen To Go

Boost Oxygen offers portable, lightweight, and recyclable canisters filled with 95% pure supplemental oxygen—no prescription required. Made in the USA, Boost Oxygen provides immediate respiratory support and is ideal for a range of users including athletes, older adults, and individuals at high altitudes or in areas with compromised air quality.

Why it matters for DoD applications:

Boost Oxygen is particularly suited for military use due to its portability, reliability, and ease of deployment. In field operations, high-altitude environments, confined quarters, or areas affected by smoke, pollution, or chemical exposure, supplemental oxygen can aid in maintaining cognitive and physical performance. It also supports faster recovery after exertion and can be a practical asset in non-medical emergency kits. With multiple canister sizes available (3L, 5L, 10L, and 12L), it adapts to a variety of mission profiles and logistical needs.

Manufactured in Milford, Connecticut, and distributed by The DaVinci Company—a Service-Disabled Veteran-Owned Small Business (SDVOSB)—Boost Oxygen is a reliable, American-made solution supporting both individual performance and mission readiness.

CANADAMASC

TAA Compliant, FDA Approved

ASTM Level 2 Face Mask-Adult

The ASTM Level 2 mask offers advanced protection with Bacterial Filtration Efficiency (BFE) $\geq 98\%$ and Particle Filtration Efficiency (PFE) $\geq 98\%$, effectively blocking airborne particles such as dust, aerosols, and microorganisms. Designed for reliable personal safety in medical and public environments, it combines comfort with superior filtration performance.

Respirator – CSA Certified CA-N95

Engineered for dependable protection, this white CA-N95-Q100 respirator is CSA Certified and delivers $\geq 95\%$ Particle Filtration Efficiency (PFE) to block dust, aerosols, and airborne microorganisms. Comfortable, secure, and ideal for personal or workplace safety.

Bouffant Cap 18" – Polypropylene, Pleated, Double Core

Made from lightweight, soft polypropylene, this 18" pleated bouffant cap features a durable double-core elastic headband that ensures a secure fit while reducing pressure on the forehead. Comfortable, breathable, and ideal for extended wear.

Anti Skid Shoe Covers

Stay protected and secure with these durable, water-repellent, dustproof shoe covers. Featuring an anti-skid coating to reduce slips, reinforced thickness to prevent tears, and a strong double-core elastic band for a snug, stay-put fit. Ideal for medical, industrial, or cleanroom environments.

Personal Cleansing Pre-Moistened & Personal Cleansing Dry Wipes

Ideal for acute care, LTC, and homecare, these wipes offer gentle, effective hygiene for daily patient care.

- Pre-Moistened Wipes: Infused with Aloe, Chamomile, Vitamin E, and Dimethicone to moisturize and soothe. Tear-resistant, pH-balanced, and easy to dispense with one hand.
- Dry Wipes: Made from a soft, durable Fluff & PET blend. Highly absorbent, lint-free, and strong even when wet for reliable, irritation-free cleansing.

TAA Compliant, FDA Approved

Orchid Safety Release Valve

Easy integration & no extra training needed: Uses standard luer connectors, fits between existing IV extension sets and administration tubing. Minimal change to workflow.

- Reduces IV dislodgements: The Orchid SRV is designed to break away under tension, helping prevent accidental dislodgement of IV lines.
- Maintains sterile barrier upon disconnection: When the device activates (disconnects), it seals off both sides, preserving sterility until replaced.
- Broad FDA-cleared indications: Now cleared for use with all IV access methods (PIVs, PICCs, central lines, intraosseous), for intermittent, continuous infusions, and injections in patients 2 weeks and older.
- Expanded use to blood and blood product transfusions: The device's indication has been expanded to include blood administrations, increasing its scope in patient care settings.
- Single-patient, sterile, single-use: Helps reduce infection risk and ensures reliability per use.
- Latex-free and MRI-compatible: Safe for patients with latex sensitivities; compatible with MRI environments.
- Strong clinical acceptance and performance: Testing shows dislodgement prevention rates of ~91.1% in simulation studies.

Extension Sets

- 7" Extension Set, Micro Bore with Bonded Needle-Free Valve – Designed for precise fluid delivery with a secure, contamination-reducing bonded valve.
- 7" Extension Set, Macro Bore with Bonded Needle-Free Valve – Offers a higher flow rate with a bonded needle-free valve for safe and repeated access.
- 7" Extension Set, Macro Bore with Removable Needle-Free Valve – Provides flexibility with a removable valve for customized infusion needs.

7" Bifurcated Extension Set, Micro Bore with Bonded Needle-Free Valve

This 7-inch bifurcated extension set features micro bore tubing for precise fluid delivery and dual lumen access. The bonded needle-free valve enhances safety by reducing contamination risks while allowing secure, repeated access. Ideal for efficient multi-line infusion therapy.

Medical/Surgical Partners and Products

Not Finding the Products You're Looking For?

Struggling to find a specific medical or surgical product? Leverage our extensive supplier network and industry expertise to source the exact items you need. Whether it's hard-to-find equipment, specialty medical supplies, or a unique procurement request, we'll handle the search so you can focus on what matters most.
