OVERVIEW

The DaVinci Company is a Service-Disabled Veteran-Owned Small Business (SDVOSB) dedicated to supplying government agencies with top-tier Pharmaceuticals, Medical Surgical Equipment, Medical Supplies, and Medical Devices.

CORE COMPETENCIES

- Only Authorized Dealer (No Grey Market): Partnered with and respected by leading Original Equipment Manufacturers (OEMs).
- Sourcing Excellence: Ability to source high-quality products from multiple trusted OEM partners.
- 100% on-time delivery: DaVinci's SPRS score proves our track record with consistent on-time delivery of products over the past three years.
- Expert Staff: A robust team with extensive expertise in logistics, contract administration, and distribution.

OUR COMMITMENT

The DaVinci Company prides itself on reliability, expertise, and exceptional service, ensuring that government agencies receive the best medical products promptly and efficiently. Our dedicated team is committed to maintaining our reputation for excellence and continuing to support our partners with unparalleled professionalism and integrity.

QUALITY FOCUSED STRATEGY

- In-house legal counsel who ensures all contracts are meticulously reviewed and fully compliant with regulatory requirements.
- A dedicated finance team committed to ensuring timely invoicing and strict adherence to contract requirements.
- A dedicated marketing and branding team that supports our presence at healthcare engagements and implements comprehensive marketing plans for market initiatives.
- Experienced staff pharmacist to provide expert support for all pharmaceutical supply efforts, backed by extensive industry experience.
- Expert Government and audit management that efficiently handles government interactions and audits, eliminating the need for overhead or lowest commercial pricing audits.

Sterile Field Ready Flush Syringes & Standard Dust Cover Flush Syringes (Sterile Fluid Pathway)

TAA Compliant syringes will be available Q2.

AM Safe® Prefilled saline flush syringes, sterile, non-pyrogenic, DEHP/PVC/latex-free, FDA cleared, TAA compliant, meeting the highest quality standards at a lower cost.

AM Sure Sterile Water Prefilled Humidifier TAA Compliant, FDA Approved

AM Sure Sterile Water Prefilled Humidifier provides sterile water, USP, for inhalation therapy and humidification. Designed for respiratory therapy, each bottle includes adapters and features built-in oxygen tubing connectors for easy integration. The micro-diffuser produces smaller bubbles for quieter operation and improved surface agitation, while an audible alarm alerts clinicians to flow restrictions or oxygen tubing occlusions.

AM Sure Sterile Water for Inhalation TAA Compliant, FDA Approved

This sterile water, USP, is designed for inhalation therapy and is suitable for use in nebulizers and humidifiers. Packaged in a hanging spikable bag, it is compatible with vented spikes only, ensuring safe and efficient delivery.

AM Sure Sterile Water and Sodium Chloride Inhalation Solution TAA Compliant, FDA Approved

Available in 3 mL, 5 mL, and 15 mL sizes, this USP solution features an easy open twist-off cap for precise dispensing by the drop or milliliter. It is designed for use in suctioning and respiratory inhalation.

Medical/Surgical Partners and Products

SUTUMED

A legacy of quality in surgery.

TAA Compliant, FDA Approved

Generic sutures that feature an extensive selection of sizes, lengths, and needle types, designed to meet diverse clinical needs. Engineered to mirror the performance of industry-leading brands, such as Johnson & Johnson, Sutumed's sutures offer the same reliability and effectiveness but at 50%-80% less cost.

Absorbable Sutures

- PolyGlicolic
 - Polyglactin Polydioxanone
 - Chromic Gatgut
 - Plain Gatcut
 - Poliglexapreone 25 Nylon (Mono)
-

Non-absorbable Sutures

- Nylon (Multifilament)
 - Polyester (Braided)
 - Polyester (Braided w/out Covering)
 - Silk
-

Anti-bacterial Sutures

- SUTUCRYL Antibacterial (Polyglactin) PDO II
- Antibacterial (Polydioxanone)

TAA Compliant, FDA Approved

Postpartum & Post Abdominal Surgery Binder

Postpartum and post-surgery abdominal binder made from soft, medical-grade elastic, providing lightweight, all-around compression without rolling or bunching. Designed for maximum comfort and recovery support, it aids in postpartum, C-section, and various abdominal surgeries, including hysterectomy, hernia repair, and liposuction. The latex-free, hook-receptive design allows for unlimited adjustability, while the seamless construction minimizes irritation to sensitive skin.

Seamless Maternity & Incontinence Briefs

Seamless maternity and incontinence briefs provide superior comfort, security, and dignity compared to standard hospital mesh briefs. Designed with enhanced elastic stretch and a wide waistband, they accommodate a range of body types while ensuring a secure fit. The strong, evenly distributed elastic improves comfort and prevents leaks by keeping insert pads in place. Suitable for both maternity and continence care, these briefs are compatible with all absorbent insert pads and are available in four sizes with color-coded waistbands.

Fetal Monitor Belly Band

The Fetal Monitor Belly Band provides exceptional comfort and secure monitoring for laboring mothers, including high-BMI and special needs patients. Made from a seamless, stretchable knit, it expands to hold both the transducer and tocometer in place, ensuring reliable tracking during labor and antepartum care.

Buttonhole Fetal Monitor Belts with Buttons

Made from soft, chemical-free knitted yarn, these 48" x 2³/₈" belts provide optimal comfort. Each set includes one pink and one blue belt with two buttons per bag and is latex-free.

Plush Fetal Monitor Belts with Tabs

These 38" x 1¹/₂" belts come in a hygienic bagged set, including one pink and one blue belt. Featuring sonic-welded tabs for a secure hold, they are latex-free for added safety.

Medical

TAA Compliant, FDA Approved

Pall Medical (part of Cytiva), we envision a world in which access to life-changing therapies transforms human health and we serve healthcare professionals, medical device manufacturers and patient with filtration and membrane solutions. Our medical applications are respiratory, surgical gas, cell therapy, healthcare water and IV (intravenous) filtration.

Pall Patient Kit

- **Ultipor™ 25 Breathing Circuit Filter**
- Single-use bacterial/viral and heat and moisture exchanger filter (HMEF), designed for patient-end use in anesthesia.
- BB50T Breathing Circuit Filter (obsoleted)
- Ultipor™ 55 Breathing Circuit Filters, Single-use bacterial/viral highly efficient pleated hydrophobic filter for machine end applications
- Supor® AEF low protein binding intravenous filter set
- Posidyne® ELD Filter Hold-up
- CO2 Gas Sampling Line (its an accessory or part of the circuits)
- PharmAssure® Pharmacy Filtration Devices
- Laparoshield™ laparoscopic smoke filtration system, Passive smoke evacuation system used in laparoscopic procedures
- Pro-Tec® PF30S (obsoleted)
- Filter Total Nutrient Admixture Filters
- Expandable Dual Limb Circuit
- Different lengths of dual limb & coaxial circuits, with CO2 line and breathing bag.
- **Patient Kit containing an anesthesia mask (LA, MED, SA & PED), Ultipor 25 Breathing Circuit Filer and elbow**
- Capsule Filter Qpoint Water for Faucet
- Qpoint Tap Water Filter for Faucet

Medical/Surgical Partners and Products

TAA Compliant, FDA Approved

AER Witch Hazel Pads /14-3250-40 and Towelettes

Saturated with 50% Witch Hazel, an astringent that helps to shrink swollen or inflamed tissues and relieve irritation, along with 12.5% non-greasy glycerin that acts as a protectant. May also be used in daily vaginal care to cleanse and freshen, maintaining proper anoperineal hygiene and as a final step in infant cleansing while changing diapers.

Scopettes and Scopettes Jr. 3/16 inch cushioned tips

Scopettes and Scopettes Jr. are designed for proctologic and vaginal procedures but may be used for topical and oral applications as well. Uniform and highly absorbent with 5/8 inch Rayon heads and 3/16 inch cushioned tips. Birchwood applicators are available in 8 and 16-inch lengths and are supplied in both sterile and non-sterile packaging.

Medical/Surgical Partners and Products

ONETOUCH®

TAA Compliant, FDA Approved

Blood Glucose Monitors

**ONETOUCH®
Ultra® 2**

Works with
OneTouch® Ultra®
test strips

The OneTouch® Ultra® 2 meter provides fast, accurate results in just five seconds with DoubleSure® Technology, checking each sample twice for accuracy. It tracks before and after meal averages and is easy to use with OneTouch® Ultra® test strips. Covered by Traditional Medicare Part B with most patients paying \$0 with supplemental insurance, the kit includes a meter, lancing device, lancets, and an owner's manual (test strips and carrying case sold separately).

**ONETOUCH®
Verio Flex®**

Works with
OneTouch® Verio®
test strips

The OneTouch Verio Flex® meter uses ColorSure® technology to instantly show if your glucose reading is low, high, or in range. The OneTouch Reveal® mobile app automatically logs readings, tracks patterns, and enables easy data sharing with your care team. Designed for use with OneTouch Verio® test strips, it offers a simple and effective way to manage blood sugar levels.

Level 2 & Level 3 Control Solutions

Regular use of control solution ensures accurate blood sugar readings by verifying that your meter and test strips are working properly. A control test should be done weekly, when opening a new vial of test strips, or if a reading seems incorrect. OneTouch Verio® Control Solution is designed for use with OneTouch Verio® meters and test strips. Keeping a fresh vial on hand is essential for effective diabetes management.

TAA Compliant, FDA Approved

Extension Sets

- 7" Extension Set, Micro Bore with Bonded Needle-Free Valve – Designed for precise fluid delivery with a secure, contamination-reducing bonded valve.
- 7" Extension Set, Macro Bore with Bonded Needle-Free Valve – Offers a higher flow rate with a bonded needle-free valve for safe and repeated access.
- 7" Extension Set, Macro Bore with Removable Needle-Free Valve – Provides flexibility with a removable valve for customized infusion needs.

7" Bifurcated Extension Set, Micro Bore with Bonded Needle-Free Valve

This 7-inch bifurcated extension set features micro bore tubing for precise fluid delivery and dual lumen access. The bonded needle-free valve enhances safety by reducing contamination risks while allowing secure, repeated access. Ideal for efficient multi-line infusion therapy.
